

## PSG Statements Following 25.03.08 Case Conferences

### South West

#### Gloucester

Noted change in leadership and gaps in the infection control team.

Message delivered to Trust re: the need to refocus and gain assurance to clinical practice.

Programme Actions

Visit 26<sup>th</sup> March

Seek assurance as to step up in activity following dip in performance in February

#### North Bristol

The Trust may be turning a corner in terms of performance. The appointment of an ADNS with responsibility is a step forward, but the gaps in the ICP team are apparent.

It is felt the Director focus has returned to the challenge with an improvement in attitude to the problem.

Programme Actions

OoC Team in Trust

RCA requires support – PM to action

#### Plymouth

Growing confidence from the Trust, struggling with full HII implementation. The Trust have developed a balanced scorecard and have a positive RCA process.

Programme Actions

Improving compliance with Screening, Hand Hygiene and performance assurance

#### Poole FT

Promising start and early indications suggest this Trust can deliver on actions within Action Plan,

Programme Actions

Offered OoC Team – possible April visit

Ongoing work with PCT

Support the development of Dashboard

Support the implementation of HII and effective RCAs

#### Royal Cornwall

Trust remains challenged on all fronts. Still in process of Turnaround.

Performance has been poor recently with difficulty gaining assurance

Programme Actions

OoC Team 27 March onwards

Offer new Medical Director a chance to shadow IP review to see good performing Trust.

#### RUHB

Trust is aware of their issues and challenges and the actions they need to address them.

Programme Actions

Further work to increase audit effectiveness and keep the pressure on this issue

Revisit 31<sup>st</sup> March

## Swindon

Trust continues to improve. Review was clearly a wake up call for the Trust, they have addressed all issues within the action plan

Programme Actions

Challenge and Confirm 4.4.08

Possible hand back to the SHA

## UBHT

Working hard against action plan. Significantly improved performance with MRSA. Trust responding well to CDI outbreaks, although they have to demonstrate sustainability.

Programme Actions

Ongoing support via PM

## Weston Area

Making progress against issues. Embarked on regular audit but still has some distance to travel. Significant substantive appointments made creating more stability with the top team. PCT engagement remains an issue

Programme Actions

Challenge and Confirm Meeting 24<sup>th</sup> April
